EXPERIENCE

SDE Intern, Bluestock Fintech *05/2025 – 06/2025*

- Acquired domain knowledge in stock markets and fintech for 1 month, enabling more effective and user-centric design.
- Engineered a fully responsive landing page using JavaScript, React.js and Tailwind CSS in the 2nd month.
- Collaborated in a team of 5 to develop Bluestock's fintech platform, improving UI consistency.
- Conducted cross-browser testing and optimized UI components, reducing layout issues across devices.

EDUCATION

- **B.Tech (IT)** *09/2021 – 07/2025*
  JSSATE, Noida (CGPA 7.74/10)
- **10+2** *04/2020 – 06/2021*
  DDPS, Muzaffarnagar (95.2%)
- **10th** *04/2019 – 03/2020*
  Shardein School, Muzaffarnagar (94.4%)

PROJECTS

Box Office Application [React.js]

- Built a Progressive Web Application to search *movies*, *TV shows* and *actors* using the **TV Maze API** with 90,000+ listings - achieving **100%** in Performance, Best Practices, Search Engine Optimization, and **91%** in Accessibility (Lighthouse).
- Implemented the browser's local storage to remember starred shows, reducing repeated inputs by 40-50%.
- Tech stack: React.js, JavaScript, HTML, CSS, API.
- Live Link: https://warlord0401.github.io/BOA

SortPaths [React.js]

- Created a visualizer for sorting and pathfinding algorithms (total 10) with smooth animations using React.js, JavaScript and CSS.
- This project supports 6 sorting and 4 pathfinding algorithms, namely: Sorting Algorithms: Bubble, Selection, Insertion, Merge, Quick, Radix Pathfinding Algorithms: BFS, DFS, Dijkstra, A*
- Enhanced animation performance for smoother rendering on low-end devices.
- Live Link: https://sortpaths.surge.sh

TicTacToe [React.js]

- Designed and Deployed a 1 vs 1 Tic-Tac-Toe game using React.js, JavaScript and CSS.
- Implemented move history tracking using arrays to display all previous game states.
- Live Link: https://tictac0401game.surge.sh

Nvidia Stock Analysis [Python]

- Analyzed NVIDIA stock data over 6116 trading days to uncover long-term trends.
- Visualized yearly and monthly variations to highlight significant price movements.
- Discovered a massive price increase from a minimum of $0.60 to a maximum of $974, highlighting the importance of understanding long-term trends.

CERTIFICATIONS

React	Internshala	*11/2023*
Data Manipulation in Python	Udemy	*08/2024*
TailwindCSS	Udemy	*08/2024*
HTML/CSS	GUVI	*11/2024*
JavaScript Bootcamp	LetsUpgrade	*05/2025*
SDE Internship Certificate	Bluestock Fintech	*07/2025*

SKILLS

- **Frontend:** React.js, JavaScript, HTML, CSS, TailwindCSS
- **Data Analysis:** Python, MS Excel, MySQL
- **DSA:** C++
- **Other:** 3D Modeling, Video Editing
- **Tools:** GitHub, VS Code, Blender, DaVinci Resolve
- **Soft Skills:** Collaboration, Accountability, Communication

EXTRA-CURRICULAR ACTIVITIES

- **Interests:** Music (singing), Reading Webtoons, Sports, Traveling, Gaming
- **Activities:** Member of VERVE (music society), JSS Table Tennis Team
